THE NEW BOOK CANADIANS NEED FOR FINANCIAL SUCCESS

Make Taking Control Of Your Finances Your New Year's Resolution

(Winnipeg, Manitoba) Monday, January 6, 2019 - With personal debt in Canada at or near an all-time high, risk-free investment returns lagging, and increasing financial responsibility being pushed back to the individual, it is clear that Canadians need to improve their financial literacy. Statistics show that there are gaping holes in the average level of financial preparedness. Even in those situations where wealth has been effectively achieved, there are often estate management and protection issues that have not been adequately addressed.

Living Your Dream, A Practical Resource To Enhance Personal Wealth Creation And Management, written by Larry Wilson and produced by FriesenPress, will help Canadians acquire and manage wealth so that they can turn their dreams into reality. Within this book Larry walks through the main financial planning elements that need to be considered within a comprehensive financial plan, in a non-technical and sometimes witty read.

Living Your Dream will help baby boomers through Gen Z, achieve their objectives via effective financial planning and management. The book works through the financial challenges that we all face at various points in our lives and helps the reader to understand the main programs and structures to be used, and obstacles to be managed. It identifies common mistakes that are made, and offers practical ideas, options and insight.

Larry wrote this book without any agenda or biases, it is an honest tool designed to help Canadian families achieve and live their dream.

The book offers value for Canadians who are interested in:

- Making large purchases
- Saving money
- Reducing debt
- Investing
- Managing their tax impact
- Protecting against financial calamities
- Planning for retirement
- Planning their estate

About the Author

Larry Wilson is an accredited accountant (CPA, CA), and financial planner (CFP, CIM, DMS). He also holds undergraduate degrees in both Commerce (with distinction) and Agricultural Economics.

Larry's sense of humour and his commitment to making financial concepts understandable contribute to a writing style that is not commonly found in the world of personal finance. And he is living proof that the methods discussed work—he and his wife have already accomplished many of their personal goals and have achieved financial independence well before the usual retirement age.
